

EMAN MOHAMED

React Developer | Front-End Developer

Giza, Egypt | +201120830014 | Email_ | LinkedIn | GitHub

PROFILE

Passionate and detail-oriented **Junior React Developer** with hands-on experience building dynamic, responsive, and user-centric web applications using **React.js**, **JavaScript (ES6+)**, **HTML5**, **CSS3**, **Tailwind CSS**, and **RESTful APIs**. Proficient in modern state management, component-driven architecture, and Git-based collaborative workflows. Seeking a Junior React Developer role to contribute to impactful digital products within a collaborative engineering team.

WORK EXPERIENCE & TRAINING

Front-End & React Development Training - Route Academy

2026

- Deepened technical expertise in modular React component architecture, custom Hooks, and state management.
- Built responsive, modern user interfaces adhering to UI/UX best practices using Tailwind CSS and Bootstrap.
- Integrated asynchronous RESTful APIs using Fetch API and Axios with comprehensive loading and error states.
- Practiced professional Git workflows, code reviews, and structured project folder setups for scalable web applications.

PROJECTS

Adasa - Photography Blog Application

[Live Demo](#) | [GitHub](#)

- Engineered a high-performance photography blog web application showcasing visual storytelling and structured articles.
- Implemented dynamic routing, modular data arrays for terms and content, and optimized asset delivery for fast image loading.
- Designed a fully responsive, aesthetic UI with smooth mobile navigation and clean layout presentation.

Tech: React.js, JavaScript (ES6+), Tailwind CSS, React Router, HTML5, Vercel

What's For Dinner - Recipe & Meal Discovery Web App

[GitHub](#)

- Engineered an interactive recipe discovery web application allowing users to search, filter, and discover meals based on ingredients and dietary preferences.
- Integrated external culinary REST APIs for real-time data fetching, detailed recipe breakdowns, and instruction steps.

Tech: React.js, JavaScript (ES6+), Bootstrap CSS CSS, HTML5

Cosmo Space Dashboard

[GitHub](#)

- Developed an interactive space exploration dashboard rendering dynamic astronomical data and images via external REST APIs.
- Implemented responsive UI views, client-side filtering, and real-time search functionality.

Tech: React.js, JavaScript (ES6+), REST API, Tailwind CSS, HTML5

GameArena - Gaming Web Portal

[GitHub](#)

- Engineered a modern gaming portal interface with dark-mode aesthetics, live news integration, and category filtering.

Tech: React.js, JavaScript, Bootstrap, CSS3

TECHNICAL SKILLS

Languages & Core:	JavaScript (ES6+), HTML5, CSS3, ES6 Modules
Frameworks & Libraries:	React.js, React Hooks, JSX, React Router
Styling & UI:	Tailwind CSS, Bootstrap, CSS Modules, Responsive Web Design
APIs & Async:	RESTful APIs, Axios, Fetch API, JSON API Integration
Tools & Version Control:	Git, GitHub, Visual Studio Code, npm, Vite, Vercel

CERTIFICATIONS & EDUCATION

- Front-End Web Development Diploma - Route Academy

2026

LANGUAGES & SOFT SKILLS

Languages: Arabic (Native), English (Advanced / Professional)

Soft Skills: Problem Solving • Teamwork & Collaboration • Fast Learner • Attention to Detail • Adaptability
